Very bad game. Wish deer hunting games where good like they used to be. The maps are very limited, you have to stay on the path. It is not fun. I would like to be able to walk around. You can tell the game was designed to be used with a controller and not a key board and mouse. It is very clunky to use the user interface. I feel they missed the hunting game play and messed up the menus. Wish I would have saved my money.
